

COL DE LESCHAUX - LES PRIoux

After leaving the refuge begins a wild traverse to the Col de Leschaux. From there the path goes on a balcony with the Vanoise glaciers and the Grande Casse (3855 m) in sight. The path is impressive but well marked and chained to the famous Lac des Vaches. A final descent takes you to the village of Pralognan. From the Col de Leschaux a second route allows you to avoid the balcony path in case of bad weather. Night in a dormitory in refuge.

7 hour walk / Elevation: +1000m -1800m
