

# TOUR OF THE BEAUFORTAIN MASSIF

Getaway in an authentic mountain range

Here, the landscape brings out buried memories. It permits to imagine a mountain dream! The one we drew at school without having seen it, the one that the over-frequentation of the resorts no longer allows us to find. Everything is there: the ridges of the snow-covered summits outlining the horizon, the intense green meadows where cows graze, the small village squeezed around its authentic church, clinging to the slope full of the wooden chalets, traditional habitat, scattered on the sides of the mountain. It is a natural mountain that men have not deserted. The beaufortains live their mountain life, inviting the tourist to go with them and share their country.
