

TOUR OF THE VANOISE GLACIERS self-guided

At the heart of France's first National Park

First of its kind in France, the Vanoise National Park was established in 1963. A vast territory where flora, fauna and rocky mineral world are all preserved. Between the Maurienne and Tarentaise valleys, its borders meet the Gran Paradiso massif and National Park in Italy, forming the largest nature reserve in Europe. The tour will bring you around the famous "Dômes de la Vanoise", a range of glaciers extending over twenty kilometres at the centre of the Park and passes at the foot of the Grande Casse, the highest summit in Savoie at 3855m. In 1860, a rich Englishman employed a courageous woodsman to cut more than 800 steps in the ice so the summit could be reached for the first time. Crossing some of the major landscapes of the Alps, this trek also offers a number of more technical variants, to be chosen depending on your mood and the weather conditions...

LEVEL ***

Elevation: +/-250m to 1350m average per day.

Walking time: 5 - 6 hours average per day.

Type of trek: mountain hike on marked trails including gravel paths.

You need to be in a good overall physical condition. Regularly practise an endurance sport such as walking, running, swimming or cycling, 3 to 4 hours a week. Your fitness training will make your walk easier and make it all the more enjoyable. Click here for a description of the different levels: [levels of difficulty](#)

The roadbook provides sufficient information on the itinerary of your hike. However, it is essential to be able to read an 1:25,000 map and to be sufficiently autonomous in the mountains to be able to tackle the itinerary with confidence, whatever the weather (fog, snow, etc.). Guiding is not included in the self-guided package.

You will be crossing areas with no telephone network. For your own safety, you may wish to bring along a radio or the latest generation telephone with a satellite connection.

Please note: some névés will be present on the paths until the end of June, particularly on the North slopes. High mountain boots, gaiters and walking poles are essential. Be prepared!
